

NEWTON TO MEDICINE!
MediRed GAMSAT Section III Study Manual

Contents Page

INTRODUCTION

Information about the Section III Exam	6
An Approach to Preparation for Section III.....	7
Two Methods for Approaching Section III Questions.....	8
Chapter 1: <u>CHEMISTRY</u>	12
The Periodic Table.....	12
Stoichiometry.....	14
Electronegativity.....	16
Electrophiles and Nucleophiles.....	23
Bonding.....	24
Equilibrium.....	40
Acid / Base Chemistry.....	47
Acid / Base Indicators.....	68
Acid / Base Titration.....	69
Redox Reactions.....	73
Stereochemistry (3D Arrangements).....	85
ORGANIC CHEMISTRY	102
Solubility & Solutions.....	134
Phase Changes.....	142
The Gas Laws.....	148
Thermodynamics.....	153
Activation Energy.....	159
Chapter 2: <u>BIOLOGY</u>	161
An Overview of Biology in the GAMSAT.....	161
Metabolism.....	162
Genetics.....	165
Osmosis & Diffusion.....	167
Haemoglobin & Oxygen.....	175

The Immune System	177
Homeostasis	180
Hormones	182
The Circulatory System	183
Respiration	189
The Kidney.....	191
Chapter 3: <u>PHYSICS</u>	198
An Overview of Physics in the GAMSAT	198
Motion.....	199
Forces.....	207
Energy	216
Electric & Magnetic Fields	218
Electric Circuits	228
Waves.....	237
Lenses, Light & Mirrors	239
Chapter 4: <u>MATHEMATICS</u>	248
Mathematical Definitions.....	248
Some Mathematical Tricks	249
Units.....	256
Basic Statistics	259
Powers & Exponentials.....	262
Logarithms	264
Proportionality	269
Graphs.....	274
Rates-Rate Laws, Graphs & Formulas.....	285
Chapter 5: <u>PRACTICE QUESTIONS (SECTION III)</u>	295
Chapter 6: <u>PRACTICE QUESTION ANSWERS</u>	358
Chapter 7: <u>FORMULAS</u>	403
Reference List	415
